The school fee account balance after calculation of school fees will be equally divided by the number of payments based on your frequency selection and that amount will be the year's direct debit amount. Any "returned" or "bounced" payments will be added onto the end of your schedule, unless a manual catch-up payment is made.

The calculation of the direct debit amount will not take into account any CSEF payments or conveyance allowance as these State Government payments/credits are conditional and are not guaranteed payments until received. This may result in your account going into credit, which can be rolled over to the following year, or refunded at the end of the school year where requested.
